C.O.S.H.H. SHEET FOR DRAIN TRACING DYE (ALL COLOURS)

Description: A water-soluble dye for use in the detection of leaks from drains/sewers etc.

Colours Available: RED, YELLOW, GREEN, BLUE, ORANGE, PURPLE

Composition: 50% Sodium Chloride
50% Dye Stuff

PHYSICAL & CHEMICAL PROPERTIES

Appearance: An odourless, free flowing powder, packed in 200g & 100g plastic jars.
Also available in 3kg, 5kg & 10kg Tubs

HEALTH & HAZARDS

Toxicity: This product is not considered to present any significant hazard in normal use
Skin Irritation: None
Eye Irritation: None

FIRE HAZARDS

Flash Point: N/A
Ignition Temp: N/A
Extinguishing Media: CO₂, Water Mist, Foam
Special Fire Precaution: The powder will not ignite easily in bulk, but may burn or smoulder and may give off flammable or noxious fumes if involved in a fire
Special Fire & Explosion Precaution: In common with other powdered organic products including the vast majority of dyestuffs, this product can form dust clouds in air which could be spontaneously explosive.

STORAGE PRECAUTIONS

Special Precautions: None
Protective Measures: If the dust is a problem, wear dust mask and gloves.
Spillage: Sweep up the bulk, (without creating a dust) and dispose of safely; swirl down the site spillage with water.
Disposal: Subject to local regulations, bury in an approved land fill site or burn under carefully controlled conditions

TRANSPORT PRECAUTIONS

Special Precautions: None, Not restricted by road, rail, sea or air

HANDLING/USE PRECAUTIONS

General Hazard due to casual contact is negligible and there is no reason to suppose that any abnormal toxic hazard arises from handling under normal conditions of use. However, good conditions of industrial hygiene and safe working practices should be observed and, as with all organic chemicals, exposure should be kept to a minimum by using appropriate protective clothing where dust is a problem, i.e. dust mask, rubber gloves.

FIRST AID PRECAUTIONS

SKIN: Wash off with soap and water, or proprietary skin cleanser.
EYES & EARS: Irrigate promptly with copious amounts of clean water
seek medical attention
INGESTION: Seek medical attention - symptomatic treatment.
